*Bungee located in front pocket.

Technical Data - Feather Flag Rectangular

Medium Pole Assembly Example

Compatible Base Options

Size	Print Size			Base Options			
	Height (mm)	Width (mm)	Height (mm)	Cross Base* (Weighted)	Concrete Base (10kg Stackable)	Water Fillable (15kg)	Water Fillable (25kg)
S	2100	770	1760	✓	✓	✓	✓
M	3000	770	2550	✓	✓	✓	✓
L	4100	770	3350	✗	✗*	✗	✓

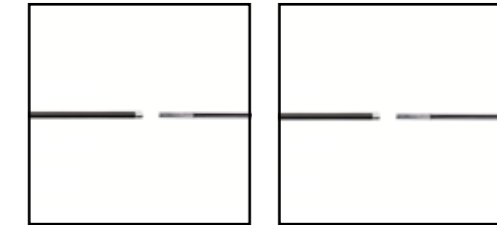

Size	Print Size			Base Options			
	Height (mm)	Width (mm)	Height (mm)	Ground Spike	Car Foot	Concrete Base (22kg)	Cross Base (Water Bag)
S	2100	770	1760	✓	✓	✓	✓
M	3000	770	2550	✓	✓	✓	✓
L	4100	770	3350	✓	✗	✓	✗

*Stacking two would allow compatibility for large.

Assembly

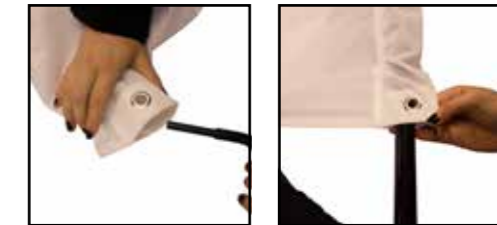

Assemble the pole in size order, large to small. This example shows assembly for the medium pole. Insert pole B into pole C.

1

Before attaching the top section (A), slide the flag onto the assemble sections. Ensure the eyelet is to the base of the pole.

2

Thread the top section (A) through the top sleeve and attach to the upright pole to secure.

3

Push the clip through the back of the eyelet. A degree of force is required, you should hear a click once it is in place. Attach the bungee cord to the plastic retaining collar and adjust the tension if necessary (to avoid rippling, do not over tension the flag).

4

We recommend leaving the bungee attached to the eyelet for safe keeping and easy install.

Time Required
 < 15 mins

People Required
 1 person
