**ANGLED WALL
MOUNTED FLAGPOLE
BUYING GUIDE**

INTRODUCTION

Angled wall mounted flagpoles are a fantastic, eye-catching option for your home, business or public building.

Buying one can seem like a daunting task - but don't worry.

If you don't know where to start this guide will take you through your options by asking four easy questions.

If you are still unsure, then our team of flagpole experts are always happy to help on 01325 355433.

**My guide will help you select your
perfect Angled Wall Flagpole.**

Q1 What angle do you want your pole to be?

We offer three angled options depending on your needs. An angled bracket of 30°, 45° or 60° is installed onto the wall to house the flagpole.

The angle is measured from the vertical wall, as shown in this diagram. Our most popular angled pole is 45°.

Q2 What type and size of pole do you want?

Harrison angled wall poles are made from aluminium or glassfibre and are available in a range of sizes.

Standard - The standard wall mounted pole is made from aluminium and available in 1.5m or 2m lengths. The kit comprises of a 60mm straight pole with a rope and cleat, topped with a white finial. The angled galvanised steel bracket is bonded to the pole ready for easy installation.

Executive - The executive wall pole is made in the UK from glassfibre and is available in 2m, 3m and 4m lengths as standard and in 5m and 6m lengths on request. It is tapered in appearance to give a sleeker look. The 2m-5m poles are 100mm at the base and taper to 65mm at the top. The 6m pole is 120mm at the base and tapers to 65mm at the top.

All of our executive wall poles are heavy duty as standard. Extra heavy duty and ultra heavy duty options are available for exposed or coastal locations.

Please note that poles over 4m will require a stay to act as additional support.

Range	Wall Thickness
Heavy Duty	3mm
Extra Heavy Duty	4mm
Ultra Heavy Duty	5mm

Q3 What additional extras do you want to add?

We recommend that a lazy line is added to all angled wall poles to prevent the flag from getting wrapped around the pole in windy conditions. The lazy line kit consists of an eye hook which is fitted to the wall and is connected to the flag via an eyelet and piece of halyard. It can also be combined with an anti furl bar within the flag for extra protection.

Q4

Which flag do you want to fly?

(Recommended sizes depend upon your pole angle and length).

We offer a wide range of flags for your wall pole. Everything from National Flags to custom designs with your logo.

The flags are available single or double sided in a choice of 3 options:

Standard: the knitted polyester material is lightweight and flies well in wind.

Environmentally Friendly: made from Enviroflag™, an innovative material made from recycled plastic items such as PET bottles. It has the same durability, strength and versatility of knitted polyester but is better for the environment.

Handsewn: created with woven polyester in the UK by our highly skilled team of seamstresses, these flags add an extra touch of quality to your flagpole.

Angled or landscape?

Angled head flags give a sharp and elegant appearance but some designs like National Flags require a plain header. Landscape flags can be a more cost effective solution whilst still leaving a striking impression.

Recommended flag sizes depend upon the size of your pole, the angle from the wall and if you prefer an angled or landscape shape. The following pages show our suggestions.

45° ANGLE POLES

45°	Angled Flag				Landscape Flag
Pole Size	Flag Size 'X'	Flag Size 'Y'	Flag Size 'Z'	Horizontal Distance 'B'	Landscape Size
1.5m	0.44m	0.52m	1.33m	0.76m	1 yard
2m	0.78m	0.69m	1.97m	1m	1.5 yard
3m	0.68m	0.91m	2.26m	1.5m	2 yard
4m	0.8m	1.14m	2.78m	2m	2 yard

45° Angled Flag

Landscape Flag

30° ANGLE POLES

30°	Angled Flag				Landscape Flag
Pole Size	Flag Size 'X'	Flag Size 'Y'	Flag Size 'Z'	Horizontal Distance 'B'	Landscape Size
1.5m	0.65m	0.55m	1.2m	1.05m	1 yard
2m	1.03m	0.69m	1.71m	1.41m	1.5 yard
3m	1.17m	0.91m	2.08m	2.12m	2 yard
4m	1.42m	1.14m	2.57m	2.82m	2 yard

60° ANGLE POLES

60°	Angled Flag				Landscape Flag
Pole Size	Flag Size 'X'	Flag Size 'Y'	Flag Size 'Z'	Horizontal Distance 'B'	Landscape Size
1.5m	0.88m	0.55m	1.2m	1.3m	1 yard
2m	1.17m	0.69m	1.57m	1.73m	1.5 yard
3m	1.45m	0.91m	1.97m	2.6m	2 yard
4m	1.79m	1.14m	2.45m	3.26m	2 yard
