

STEEL BANNER POLES GROUND MOUNTED (ECONOMY)

PRODUCT OVERVIEW

The ground mounted banner pole can be used as a temporary or permanent solution to get your message across, providing a significant presence from afar.

The economy range of ground mounted banner poles are installed with either a hinged base plate for easier installation and changing of banners, or a ground sleeve so the pole can be removed as necessary.

This range can withstand wind speeds of up to 30mph and can be powder coated to any RAL colour to keep in line with your building or surroundings.
